**OMG! The Intersection Lights Are Here!**

**We have been advising of the change for months now. The wait is over! The turn lights from Baseline to Farnsworth and push to walk equipment is in and should be turned on soon.**

**SVE New Access Device Rollout**

Today, July 9th the Association is hosting an access device event in the auditorium from 9 a.m. - noon. In order to pick up your new device a homeowner must present a government issued, photo ID. Your new device will be a key FOB for homeowners rather than a card key. The FOB can be added to your key ring so that you will always have it with you.

Access device distribution event hours for the month of July are:

- |   |                      |
|---|----------------------|
| 9 a.m. - noon on Tuesday, July 9 <sup>th</sup> -  | Location: Auditorium |
| 9 a.m. - noon on Monday, July 15 <sup>th</sup> -  | Location: Auditorium |
| 9 a.m. - noon on Tuesday, July 23 <sup>rd</sup> - | Location: Auditorium |

The new devices use proximity technology so that you just hold the device next to the device reader mounted on the door frame to gain access to that door. You will not have to insert the device into a reader. Door access times have been set up to reflect our current access policies. For instance, the pool area gates will only open during regular pool hours. The HOA has included a number of additional doors to the new system including the woodshop, lapidary, ceramics, computer lab and the south fitness facility. Some area will only be open when trained monitors are present.

If you are a homeowner with rental properties, you should've received a special email with instructions on registering renters with the Association office. Until you register your rental properties with the office, an access card will not be issued to the renter. If you have not received a renter registration form, please pick one up in the Association office. The current guest registration process will be used to issue access cards to guests.

We hope to have the door access conversion completed no later than **July 20, 2019. The door access conversion has started. The south fitness facility is converted to fob access entry. Until all SVE amenity doors are converted, you will still need to carry the old access card and new fob device**

As with any new system, there may be some hiccups in the process both in the setup and in our learning about the new system so please be patient during this transition period.

**If you are a seasonal resident or currently on vacation, don't worry. The Association will host several access device distribution events at various times over the next 8 months.**

**FLAGS IN THE COMMUNITY**

*It is with great pride and appreciation to see how many residents are flying our nations flag. There is never a bad time to show your appreciation.*
